Standard Tetrazolium (TZ) Test (all species) 26.75

NOTE – certain species may incur an hourly fee of \$50.00 per hour. Please contact the MCIA office for clarification.

Accelerated Aging (AA) Test 21.50

Obtaining a Sample for Testing

- For lots of 1-6 containers, sample each container and take a total of 5 cores or handfuls.
- For lots of more than 6 containers, sample 5 containers plus 10% of the number of containers in the lot. Regardless of lot size, it is not necessary to sample more than 30 containers.
- Bulk seed – take at least as many cores or handfuls as if the same quantity of seed were in containers of an ordinary size. Take the cores or handfuls from well distributed points throughout the bulk lot.

Sample Size Required

- | | | |
|--|---------------|----------|
| 1. Soybean, small grain, rice, corn, cotton: | Germ Only | 1 pound |
| | Germ & Purity | 2 pounds |
| 2. Small seeded legumes and grasses: | All Tests | ½ pound |

Where to Submit Samples for Testing

Missouri Crop Improvement Association
 3211 Lemone Industrial Blvd.
 Columbia, MO 65201-7600

Billing

MCIA will establish an account for each client. Charges will be posted to your account at the time a preliminary or final lab report is issued. Clients will receive a monthly invoice for services provided.

MCIA's seed testing lab is a full service laboratory. For information on services or pricing not listed above, please call the MCIA seed testing lab at (573) 449-0586.
